

Workplace Violence Prevention

Association of Crime Prevention Professionals

POLICE LINE DO NOT CR

Identify, Minimize, and Teach Workplace Violence Prevention

ACPP's Train-the-Trainer course is designed to provide your personnel with the tools to teach and understand the dynamics of workplace violence

Workplace violence is not bound by geographic, social or economic barriers. Any company can become a target. Experts agree that workplace violence is a predictable behavior – if you know the warning signs.

Do you know the warning signs and are you prepared to act?

Who should attend: Law enforcement officers, Top Management, HR Directors, Human Resource employees or Safety/Security Personnel

Violence in the workplace has many forms ranging from verbal confrontation – such as sexual harassment – to threatening statements, fighting or even homicide.

Domestic violence incidents are now a leading cause of injury and death on the job, which often impacts innocent bystanders. Nationally, workplace homicide has risen with employers and supervisors often targeted by disgruntled employees.

ACPP leads you through a careful process of planning and prevention to help you identify your risks and liabilities, and take steps to minimize them. ACPP provides the tools to design your own workplace violence plan and how to respond to threats. In addition you will receive the educational tools to train employees in order to minimize the likelihood of incidents occurring.

Topics Included:

- **Statistics/Facts about Workplace Violence**
- **Causal Factors (What leads to Workplace Violence)**
- **Recognition of Warning Signs**
- **Risk Factors**
- **Development of a Workplace Violence Program**
- **Critical Events**
